

COSSE

Design by
Philippe Nigro

Description

The inspiration for the Cosse settee is comfort. Soft, welcoming contours, a soft, delicate, all-enveloping form which, sustained by a fine natural wood structure, floats above the ground. The remarkable comfort of the seat, achieved thanks to its elastic-webbed suspension, contributes to this feeling of comfort and lightness. One will also note those little details which, as always with our collection, serve to add to the sumptuousness of the model : the meanders of the armrest, for example, and the resulting difficulty of upholstering these, or the extreme slimness of the solid wood feet.

Technical Specifications

CONSTRUCTION & COMFORT
Structure in mechanically-soldered steel ; Pullmaflex steel-sprung suspension ; high resilience polyurethane Bultex foam (36 kg/m³ - 3.2 kPa) clad in 110 g/m² polyester quilting. Armrest in moulded foam (60 kg/m³ - 7.5 kPa) clad in 110 g/m² polyester quilting. Elastic-webbed suspension.
