

“Drapé Sofa”

“Drapé” Collection design Bartoli Design

Drapé is an elegant solution designed for the most demanding clients, looking for a sofa in which sophistication is the key feature. Available with leather or velvet and in different dimensions, it is a sofa with a strong identifiability. Drapé is a collection of upholstered furniture, featuring plentiful and casual draped lining. The special tailoring work is instantly recognizable, in its creation of soft upholstered forms. The irregularity of the pleating makes each piece unique and unrepeatable, resulting in a look that is both casual and luxurious. It looks equally great with both modern and classic furnishings.
