

Lars

Giuseppe Viganò

Lars sofas are available in two different backrest heights (tall or low). The low version affords maximum modularity: indeed, the collection comprises several items including chaises longues, single-seater units and poufs. The feet are made of mat painted metal; the down and polyurethane padding can be upholstered with removable fabric or leather covers. In addition, Lars can be teamed with the Fard coffee tables, with a painted metal frame and wooden table top, which are available in four different sizes.
