

DAYBED

For many who've encountered it, the BassamFellows Daybed is more than a piece of furniture – it's an obsession.

The Daybed occupies a deservedly distinguished place in the history of furniture design and over the years it has become an important modernist staple. The BassamFellows Daybed is an evolution of that tradition with a solid wood frame constructed by expert cabinetmakers and an 'achingly soft' leather cushion. Hand sewn from four separate panels of leather, each cushion is padded with all natural down filling for softness and edge-banded foam for sharpness. A separate headrest cushion is detachable and an oxidized brass back support mechanism adjusts to three different positions.

With its sumptuously low-slung profile, the Daybed can hold its own in any environment. It was designed to be seen and used in the round and its slim, simple profile lends itself to open, flowing spaces. It's also compelling when paired with other furniture, an elegant antidote to the uniform landscape of lounge chairs and sofas.

	W 76 3/8"	W 194cm
CB-41	D 33"	D 84cm
