

Panorama

Fabrice Berrux

The Panorama collection of padded products is based on a specific item which can be considered to be the real unit of measurement of the system: the hexagonal pouf which, when fitted with armrests and a backrest, becomes an armchair which, in turn, can be combined with additional armchairs and sofas to achieve the most diverse configurations. Customisation and creativity reach their utmost expression here, and the results that can be achieved are absolutely unprecedented.

UPHOLSTERY:

fabric

Capri leather

Ischia leather

Procida leather

Ponza Nabuk leather

Ponza Anilina leather

FEET:

anthracite grey painted wood
