Piero Lissoni

Description

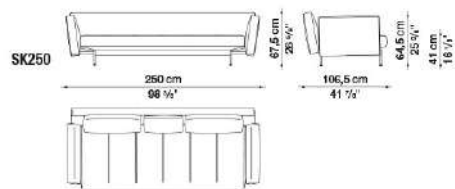

SAKé segna l'inizio della collaborazione di Piero Lissoni con B&B Italia. Il progetto si sviluppa partendo da un sistema di sedute dal forte sapore contemporaneo, che si distingue per l'accurata ricerca di equilibrio formale. Piani di seduta in tre dimensioni (cm. 175, 210 e 270), braccioli e schienali dalla forma lineare o avvolgente, in varie dimensioni, si aggregano armoniosamente dando vita a soluzioni divano adattabili allo spazio e al gusto personale. Ad arricchire il sistema, un elemento chaise longue (cm. 105 x 135) che si presta a varie interpretazioni: come elemento terminale di una composizione lineare, nella versione con schienale avvolgente e l'aggiunta di bracciolo può vivere in totale autonomia e, infine, affiancata ad un'altra chaise longue crea un divano con seduta profonda. I dettagli delle cuscinate e della base di sostegno contribuiscono a dare al progetto una connotazione di leggerezza. Il cuscino della seduta presenta una raffinata impuntura modulare, con un passo di cm. 35 o 45; i cuscini schienali, disponibili in due dimensioni, sono delimitati da fasce dotate di profilo. La base di sostegno del

B&B
ITALIA

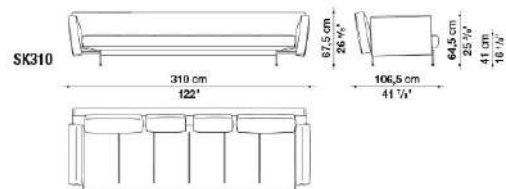

sistema di sedute è realizzata da traverse con piedini in tondino d'acciaio collegati tra loro da una barra. Il tutto con finitura verniciata color peltro. Dal sistema di sedute, nasce anche la declinazione divano letto (cm. 150 x 210), l'unico della collezione **B&B Italia**, che mutua gli elementi di seduta e schienale dai divani. Il bracciolo, destro o sinistro, assume la funzione di testata quando attraverso un semplice movimento di traslazione della seduta e di ribaltamento dello schienale, il divano si trasforma in un letto singolo.
