

Slab

Mauro Lipparini

The generous depth of the seat guarantees excellent comfort. Thus Slab embodies the cohabitation of rigorous linearity of shapes with the softness of materials, inviting you to relax totally. The well-balanced modernity of Slab makes it perfect for living rooms with a contemporary spirit, where it adapts with the utmost flexibility thanks to the large number of elements which make up the collection, sofas, chaises longues, single-seater units and poufs. The base is made of matt painted metal in anthracite grey, dove-grey, white or amaranth. The seat and back cushions are padded with duck down and upholstered with removable fabric or leather covers.
