NETWORK 142 sunlounger

Design Rodolfo Dordoni

Description

Sunlounger for outdoor use. Reclining back 7 positions

Structure

Teak. Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grev color: this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

Belts

Double-twisted 100% polyester thread, in cotton finishing; they have great toughness and great resilience, high resistance to abrasion, to heat, to bending stress, high modulus of elasticity, minimal wet regain, good resistance to chemical agents and to bad weather conditions; color fastness to light of 7 in the blue scale (maximum of the scale: 8); as the time goes by, the exposition to extreme weather conditions may cause a discoloration of the threads.

Cushions

Standard or hydro-draining

Weight

Structure: 38kg Cushions: 5kg (thin h6 cm); 7kg (standard h10 cm)

Storage cover Available

Maintenance

Teak

- For a normal cleaning, use a soft cloth (not in microfiber), fresh water and SUNDECK SOAP. - Use SUNDECK WOD OIL LIGHT, a nutrient and protective oil, on new products to avoid the oxidation of the surface.

- Remove the grey patina due to the oxidation of the surface, useing GREY OFF every 2/3 years. After the treatment with GREY OFF, wash the furniture with water and SUNDECK SOAP and oil it

with SUNDECK WOOD OIL LIGHT. If deep spots hard to clean with SUNDECK SOAP may happen, sand the surface uniformly before using GREY-OFF; in any case, do not use GREY-OFF more than once a year.
