
Ray Outdoor Fabric

CHAISE LONGUE

Antonio Citterio

Description

Ray Outdoor Fabric presents a "ribbon" interlacing made of polypropylene fibre that is resistant to both UV radiations and atmospheric agents. The colour range, which particularly blends into an outdoor setting, ranges from turquoise to blue, from acid green to tortora and bright bordeaux. Seats in both collections include sofas available in two depths and modular elements, from terminal elements to the chaise longue and armchair. The sunbed is only present in the "Fabric" collection.
