

ANNA

Design by
Christian Werner

Description

Anna designed by Christian Werner, is a warm, inviting sort of bed with a 'tailored' look. Although it is designed to stand alone it may be complemented by the Everywhere range of bedside tables, chests of drawers and cupboards, and of course by any item of bedding in the Ligne Roset collection.

Technical Specifications

STRUCTURE

Detachable headboard in panels of particleboard overlaid with polyether foam, with a 'point de cheval'-stitched cover. A slipover back cover may be ordered in any fabric from the collection.

COMFORT & BEDDING

To align the mattress with the bed-frame, this model has an integral slatted base. Frame in multi-ply, with integral slatted base in multi-ply with domed slats in beech multi-ply, suspension in 36kg/m³ - 2.6kPa high resilience polyurethane Bultex foam, and exclusive antibacterially & antifungicidally-treated 100% cotton piqué ticking (dry cleanable). The W 200, W180 and W160 versions are always delivered in two parts. We strongly recommend that the sprung mattress be ordered with this bed rather than the thinner Bultex version, so as not to spoil its line. When selecting a mattress please go by the nominal dimensions of the sleep area - i.e. 140x200, 160x200 or 180x200 - rather than the French dimensions (e.g. 158x198cm). Suggestions for bedside tables:
