Jacqueline

Design design Jean-Marie Massaud, 2011

An upholstered bed to make the night world more and more fascinating: Jacqueline, design Jean-Marie Massaud, is distinguished by a soft covering with visible stitching.

Night collection

Variety is the word to define the collection: different proposals, various ideas for the night area; functionality, design and emotions are joined together in beds with a strong personality. To complete the choice there are "dedicated" containers, coherent in style, along with one multipurpose series, which can be freely combined. Conceived to really satisfy any resting requirements, this system includes also mattresses, pillow and complements.

Finishings:

Upholstered frame and headboard covered in removable fabric, eco-leather and leather.
Stitching: double normal or stitching cord in 10 colours of sample book. Trims: grosgrain in 10 colours of sample book. In the version with leather, eco-leather and velvet covering the stitching cord, the zigzag décor and the toggle fastening details are not available.
