RANDOM NEW 2017

Designed by Neuland Industriedesign

The iconic Random bookcase is renewed and the product range welcomes new modules and colours.

Adding the colour medium grey to the classic matt white has made it possible to create different accents and to bring new value to the product's distinctive shape. This new neutral colour makes the piece perfectly adaptable to any furnishing scheme.

Another new aspect is the contrasting variant, which introduces two one-of-a-kind modules that can highlight the iconic lines of the Random collection with an interesting application of chiaroscuro imagery. Possibility of large-sized configurations by flanking.
