ARMCHAIRS

Naoto Fukasawa

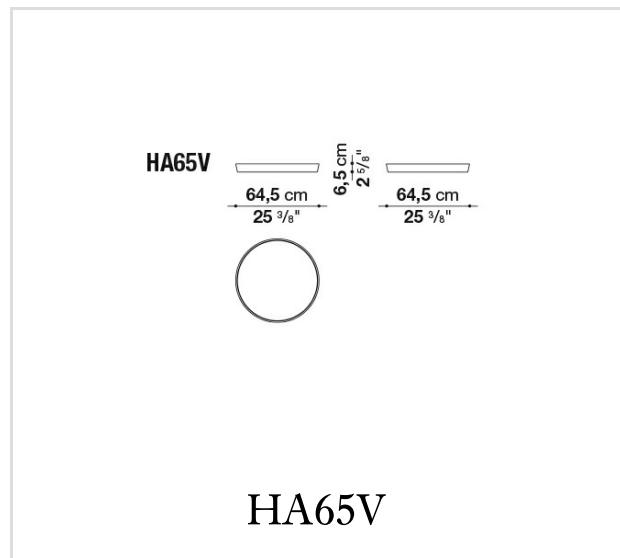

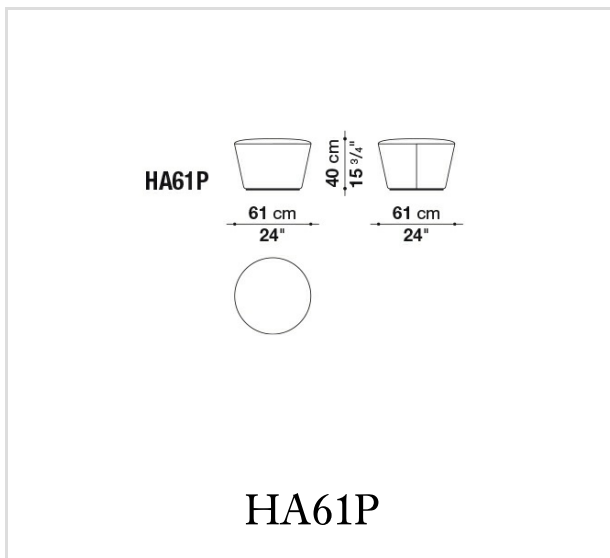

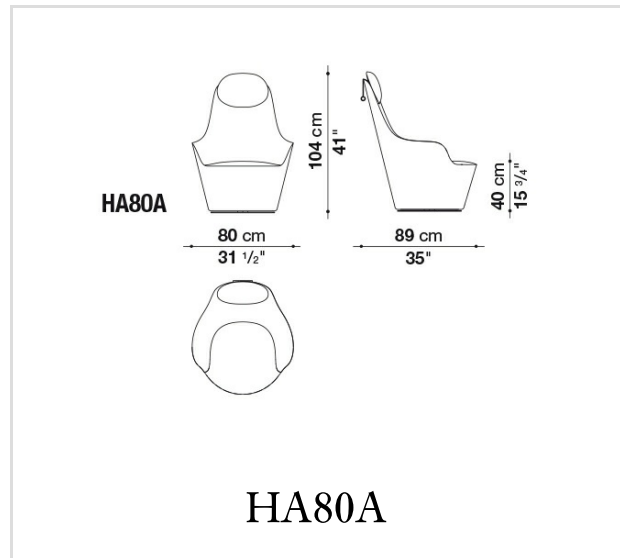

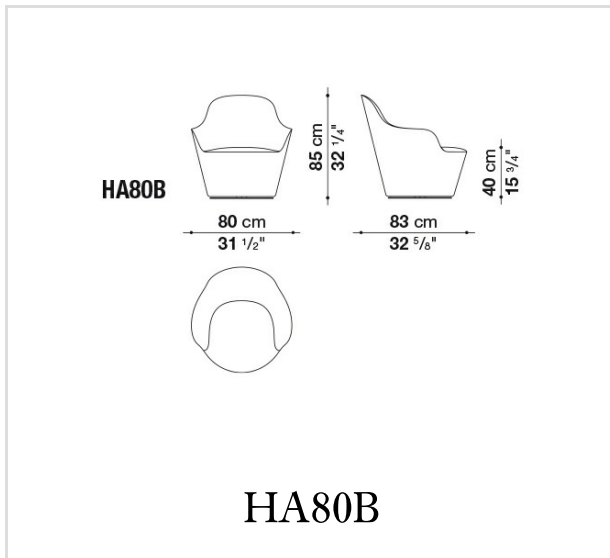

Description

Naoto Fukasawa continues his research on upside-down truncated cone shaped seats, and, for this project addresses B&B Italia's need to explore the seating with arms. Two forms are ergonomically designed and developed to obtain a relaxing easy chair with a high back and headrest, and a conversation armchair with a low back. Both armchairs have a rotating base and visible metal hinge in the back that, as with the iconic Papilio series, allow to remove the covering, available in fabric or leather. To these seats are added a third form, a pouf on top of which a tray element can be supported, allowing complementary use as a table.

Technical informations

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
