

Series of poufs with removable cover made with a linen or hemp cord sewn in a spiral-like pattern.

The natural materials featured in the Eres collection can be used outdoors, but not be directly exposed to the elements, and require some extra attention and care than traditional outdoor furniture. These products need to be used under a stable cover and to be protected overnight. It is also recommended that they are sheltered indoors for seasonal protection. Some of the materials will mature and will change appearance and colour over time. And this will naturally happen.

Padding: available in two versions

- natural latex, paineira vegetable fiber, woolen felt; fixed cover in 100% cotton fabric
- polypropylene microspheres, fixed cover in three dimensional 100% polyester fabric

Upholstery: removable, in linen or hemp cord.

Notes:

The entirely natural padding of the Otto poufs guarantees the same comfort of a traditional synthetic padding.

The paineira vegetable fiber is water repellent, non-allergenic and completely biodegradable.

The product can be used also in interior environments.

We advise to use a Winter Set protection cover.
