Designer

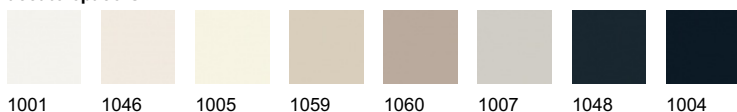

Studio Cappellini

2013

Starting from its beginning, this team, which cares about research and product design just inside the factory, proposes, under the supervision of Architect Giulio Cappellini, items which are "long sellers", that is to say able to resist to fashion and time to become main component in the brand philosophy. Exercising its twenty-five-yearslong experience in product design field, Studio Cappellini completes the international landscape that the brand proposes to customers.
