FLOW FILO

Designed by Jean Marie Massaud

INDOOR AND OUTDOOR CHAIR

A BRIGHT TRIBUTE TO 10 YEARS OF FLOW. Flow: a timeless icon, that celebrates 10 years!

For this important anniversary, Jean Marie Massaud created a brand new version of the famous chair in its two versions - chair and slim - in which research and craftsmanship are combined. The outcome was Flow Filo, that is so charismatic to intercept every glance.

With a steel core in black chrome or nickel chrome finish, the new chair is proposed with or without padding, the latter in black or ivory leather covering, on demand, also the backrest. A single sled base completes the product.

Perfect combination of design and manual flair, Flow Filo stands out for the precious craftsmanship of its processing, got by welding together the thin and shining steel wires which it is composed of.

Like a precious artifact, the chair finds its ideal location in homes with both classic and contemporary style, standing out like a small treasure to contemplate, before sitting on it.

But that is not all: Flow Filo is also available in the outdoor version, painted with epoxy powders, in matt bronze and black nickel finishes. Obviously in this case, it is subjected to a specific treatment for outdoor use.

TYPES AND VERSIONS

INDOOR VERSION

Load-bearing frame in steel rods, of different diameters, with original sled base design, available in glossy black chrome or nickel chrome finishes.

Special pad, for indoor use only, made of leather with polyurethane padding, in ivory and black matt colours.

Available in the seat or seat and backrest versions. Cover not removable. Fastens to the structure using special buckles on the back part.

INDOOR/OUTDOOR VERSION

Load-bearing frame in steel rods, of different diameters, with original sled base design, epoxy powder-coated in bronze matt and black nickel finishes, with a specific treatment for outdoor use.

Special pad for indoor and outdoor use, made by molding in soft integral polyurethane, in matt mud and anthracite grey colors. This particular soft integral polyurethane is called FreeForm, with a smooth soft touch surface, with a good mechanical and aging resistance. Available in the seat and/or backrest versions.
