

SPINDLE CHAIR & STOOLS

Since its release, the Spindle Chair's distinctive silhouette, originally inspired by a visit to Louis Kahn's Exeter Library, has appeared in a vast array of celebrated commercial and residential interiors. The BassamFellows Spindle Chair offers a new take on the classic piece, distinguished by its weightless quality, which designer Craig Bassam achieved by using metal for the chair's legs and spindles. This contemporary reboot makes the spindles less prominent, evoking a less rustic, 21st century setting for the chair.

BassamFellows have also introduced the Spindle Chair in counter and barstool formats. Once again, the illusion of two floating surfaces has been created by the use of metal legs paired with elegantly carved wooden elements. Both bar and counter versions feature commercial grade swivel returns, giving them broad application for a range of settings, notably London's all-brass Le Chabanais Restaurant. Whether it's a chair, counter or bar stool, the BassamFellows spindle series is distinguished by its seductive, elemental simplicity.

CB-28	W 22 1/2"	W 57.2cm
Spindle	D 20 1/4"	D 51.4cm
Side Chair	H 29"	H 73.7cm
