

DORIS™

Design GUNILLA LAGERHEM ULLBERG
WOVEN CHENILLE RUG IN *pure wool*

KASTHALL

Doris – Emerald 351

PRODUCT SPECIFICATIONS

Doris is a woven rug in pure wool. For Doris, we have used two types of yarn: a fluffy chenille to create the pattern, and the classic wool yarn used in so many of our woven collections. The dotted pattern used to give the rug its beautiful texture has been inspired by the varying shape of gemstones. The colours also bring to mind gemstones and metals, ranging from subtle, natural colours to clear, vibrant combinations, in a total of 10 shades. Doris also makes a very effective and exclusive wall to wall carpet.

Product type: Woven chenille rug in pure wool

Weft material: 100% wool

Warp material: 100% linen

Size: Custom made sizes, width 70-600 cm. Or choose amongst our suggested sizes: 90x240 cm, 140x200 cm, 170x240 cm, 200x300 cm, 250x350 cm. Also suitable as an exclusive wall-to-wall carpet.

Total height: approx. 13 mm

Total weight: approx. 2900 g/m²

Wear classification:
(EN 1307) Class 31
Commercial Moderate

Suitable for
Castor chair: (EN 985)
Occasional use

Burning classification:
(EN 13501-1) CfI-s1

LEED: Doris has LEED certification – CRI Green label Plus

CARE ADVICE WOVEN RUGS

To prolong the life of the rug, and make sure it retains its shape and appearance, Kasthall recommends regular care. A one-coloured rug in a light shade requires more care than a dark, patterned one. It is also a good idea to use a rug underlay to prolong the life of your woven rug and prevent it from slipping on any type of floor. Careful vacuum cleaning is the easiest and most environmentally friendly cleaning method. It is also the most economical. Beating or shaking the rug can damage the fibres. That is why we recommend that you vacuum clean or air it instead. When removing stains, be careful not to wet the rug too much, as this can cause woven rugs to shrink and lose their shape.

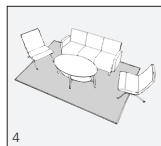

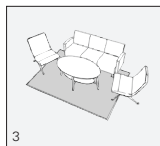

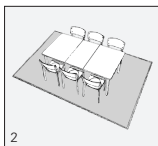

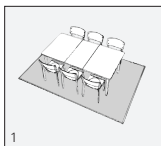

CLEANING ADVICE

We recommend that the rug is cleaned by a professional cleaner, using the extraction method on a flat surface. The quantity and temperature of the water will depend on the material and pile length. Good ventilation during the drying process is essential. Shrinkage will be about 3–5%. Kasthall's rugs are not to be machine washed or dry-cleaned. At www.kasthall.com you can read more about our materials, how to look after your rug and find our stain guide.

CHOOSING A RUG

Choose the characteristics of the rug, its colour and design to suit the space in which it will be laid. If it is to be laid in a hall, for example, you may choose a type of rug that is more resistant to wear, and a colour that is a little darker and dirt-tolerant. Use a rug as a means of bringing together the rest of the interior. Decide whether you want to place a sofa on the rug or at its edge. If a rug is to be placed underneath a dining table, add at least 60 cm all round the table to allow space for pulling out the chairs.

Woven rugs are suitable for most settings, both public and private. Ideal for use in domestic settings such as dining rooms, halls and kitchens, and in retail environments, conference premises and corridors. May also be laid as a carpet.

Examples of commonly used rug sizes:

1. Dining table with 6 chairs: rug size 200 x 300 cm
2. Dining table with 6 chairs: rug size 250 x 350 cm
3. Three-seat sofa with armchairs: rug size 170 x 240 cm
4. Three-seat sofa with armchairs: rug size 200 x 300 cm

OTHER INFORMATION

- Depending on the materials used and the rug-making process, dimensions may vary by up to $\pm 5\%$ so please state maximum or minimum dimensions when placing your order.
- Note that all rugs from Kasthall are made from natural materials. Variations in colour and texture can therefore arise between batches of yarn and dye baths.
- Rugs should be laid on an underlay that prevents them from moving on all types of flooring. This extends the life of the rug and reduces the risk of slipping.
- The use of backing fixes the dimensions of a rug and extends its life. This is recommended for rugs that are wider than 200 cm and/or those larger than six sqm.

ENVIRONMENT AND SOCIAL RESPONSIBILITY

At Kasthall environmental work is a very natural part of what we do and what we stand for – today and for generations to come. Naturally we are certified according to the environmental standard ISO14001, and many of our products bear the symbols of LEED, BASTA etc. These certificates confirm our continuous efforts. All our rugs are made to order in Sweden, using the finest renewable natural materials. Our working environment reflects the creativity and quality that we strive for – in design, materials and manufacture. Read more about our environmental work and philosophy at kasthall.com
