

## Hinge

design Francesco Rota

Coffee table available with four different shapes of top in 12mm float glass, each of which can be combined with two structure configurations, with a height from the floor of 36cm. The base consists of 20mm lathe-tapered steel bars; 16mm steel tubular spacers, measuring 30/60/90cm, to be combined to give the configurations shown in the catalogue. Epoxy powder painting in the RAL colours of our collection. The table is delivered as a kit ready for assembly.
