

VILNA

Design by
Pagnon & Pelhaître

Description

A table of extremely pared-down lines which puts to use the characteristics of full-body ceramic stoneware to give the impression of visual lightness at a level rarely equalled. The top is linked to the base by a large section frame with a plate to which the legs are attached. The top, which overhangs by around 12 cm, renders the structure barely visible. The designers present Vilna as an innovative table, a design object, with its overhanging top and sharp-looking metal base.
