

Bonnet

Designer	Marialaura Irvine
Anno	2024

I tavoli della famiglia Bonnet interpretano con élan architettonico il tema delle forme morbide e razionali, introducendo all'interno della collezione di MDF Italia un tocco di femminilità che invita a inedite esperienze di convivialità.

Le gambe, simili a lame addolcite, svettano e accolgono il piano del tavolo con cui creano una tensione dinamica. Le sagome asimmetriche e inusuali del piano, semplici ma decise, sono caratterizzate da una forte personalità che smussa il rigore formale con quel che la designer, Marialaura Irvine, definisce un "radical wishper".

Combinati tra loro, questi tavoli possono creare configurazioni inaspettate. Frutto di sperimentazioni con materiali e colori, le sofisticate finiture mono-materiche in Coccioperlà (una miscela di malta, inerti e madreperla triturata) conferiscono infine alle superfici un'aura tattile, brillante e vivida.

Piano/Struttura

Top in nobilitato, spessore 3 cm, sorretto da un telaio in metallo che consente la giunzione del top con le basi. Basi in metallo curvato.

Top e basi entrambi rifiniti con la finitura Coccioperlà, ottenuta da una miscela di malta, inerti e madreperla triturata. Spatolata manualmente su tutta la superficie.

Elettrificazione su richiesta.
