Phantom

Let yourself be carried away by the beauty of the Dining Phantom collection, an exclusive range of tables and sideboards that transform your dining room into a place of extraordinary refinement and modernity. Imagine precious woods, natural stones, combined with the lightness of glass, creating a perfect blend of opacity and transparency. Each piece in the collection is a work of art designed to offer a unique visual and tactile experience, telling a story of beauty, quality, and innovation. The Dining Phantom collection is not just a set of furniture, but a celebration of design that elevates every space, making every moment special to remember.

Design by Mauro Lipparini

Lipparini is an eclectic architect and designer who expresses his creativity in all areas: complex industrial projects, interior architecture, installations, study of products. He is one of the leading figures of "Italian minimalism", internationally successful, and his talent earned him many recognitions. Recognized in competitions around the world such as the Good Design® Global Awards

Versatile Beauty

The Phantom table is the perfect combination of versatility and refined design, crafted to adapt to any environment with style and functionality. In the wooden version, the Phantom table is available in two elegant rectangular sizes, while the round version comes with a top in Natural Travertine.

Technical Features

Discover the distinctive feature of our Phantom dining table, where the durability of wood or stone meets the lightness of the glass base, creating a striking contrast between opacity and transparency.

Base in Extra-Clear Tempered Glass

The supporting structure of the table is composed of two thick slabs of extra-clear tempered glass held together by a solid wood crossbar in various finishes, creating an effect of lightness and transparency.

Advanced Attachment System

The crossbar features a glass attachment system with stainless steel fixing plates, ensuring a robust and secure connection. The UV bonding process ensures a perfect and lasting hold.

Anti-Slip Glass Slabs

The supporting glass slabs are equipped with anti-slip rubber strips, offering stability and safety.

Wooden Top

The top is made of wood available in various finishes such as walnut and oak, with solid wood details on the edges for a natural and refined look.

Natural Material

Wood, being a natural material, may present differences in color and texture, making each piece unique.

Round Version Available with a top in high-quality travertine

from Italian quarries, the table top is a true masterpiece of craftsmanship.

Artisanal Craftsmanship

The marble top is meticulously handcrafted from a single slab of stone, ensuring uniqueness and perfection in every detail.

Transparent Resin Coating

For the marble top, which not only protects the surface but also highlights the natural veins of the stone with a satin finish. To ensure long-lasting durability, the marble is also finished on the underside with a resin coating.

Beveled Edge Details

The beveled edges add a touch of refinement and modernity, further enhancing the beauty of the marble.

Technical Features

Wood and Light: The Beauty of Natural Change

Wood is a living, natural material, and as such, it can undergo changes over time when exposed to light. This phenomenon not only adds character and uniqueness to your furniture but also tells a story of transformation and natural beauty

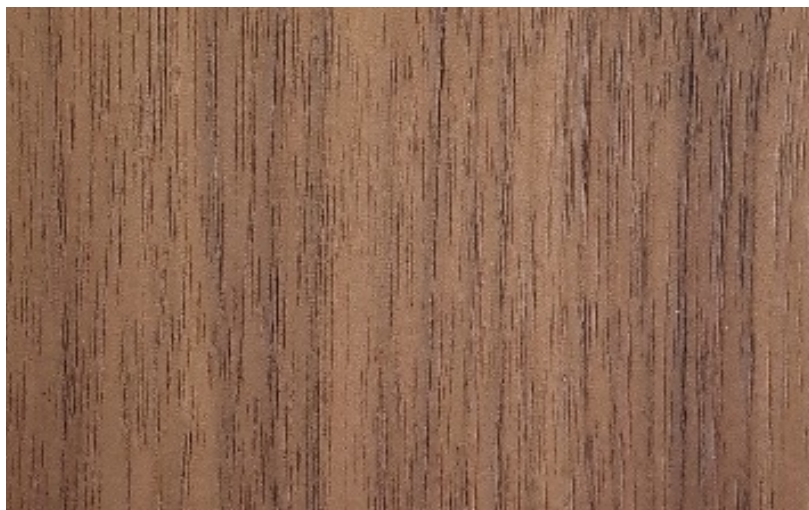

WALNUT WOOD

Superior Aesthetics

Walnut wood is renowned for its natural beauty, with rich and deep grain patterns that range from light brown to dark brown, often with golden hues. This variety of tones gives a luxurious and sophisticated look to any environment.

Natural Robustness and Durability

Walnut wood is known for its inherent sturdiness and everyday durability

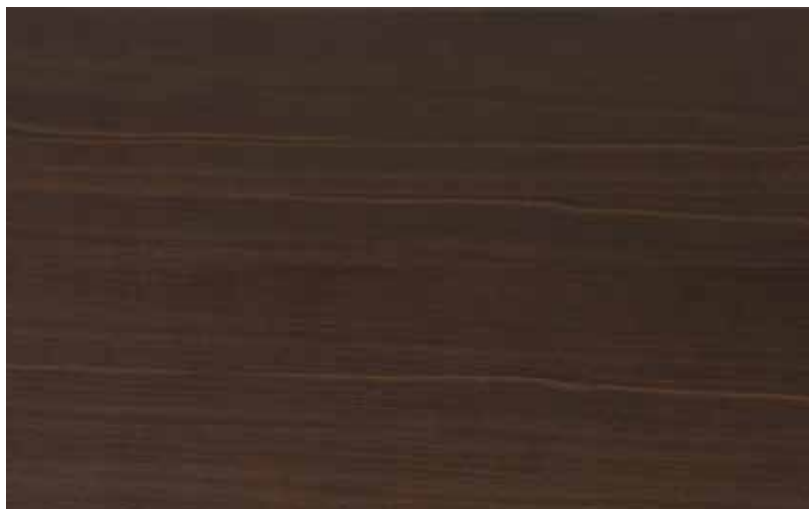

SMOKED OAK WOOD

Unique Aesthetics

The smoking process gives oak a dark and rich tone, with shades ranging from deep brown to black. This treatment enhances the natural grain of the wood, creating a captivating and sophisticated visual effect.

Durability and Strength

Smoked oak wood is known for its robustness and durability. The smoking process not only improves the aesthetics but also increases the wood's resistance.

Technical Features

Travertine: Natural Elegance and Durability

Discover the timeless beauty of travertine, a prized limestone appreciated for its distinctive structure and warm, earthy color palette. Ideal for those seeking a versatile and high-quality material, capable of transforming any space with its natural charm.

TRAVERTINO STONE

Unique Aesthetics

Travertine is known for its porous and pitted surface, with natural holes and cavities that give it a rustic and organic appearance. Its natural veins and layered patterns, formed by the deposition of minerals over time, add visual depth and character to the stone.

Warm Tones

Available in a range of colors from beige to cream, travertine brings a sense of warmth and natural elegance to any environment.

Durability and Uniqueness

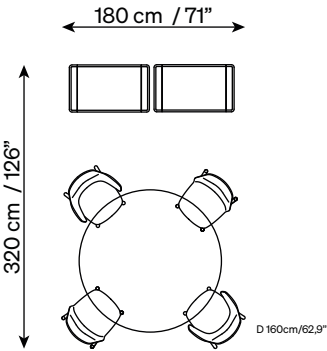

The intrinsic variations in color, texture, and veining of natural travertine, along with the variations resulting from the hand-finishing process, highlight the uniqueness of each piece.

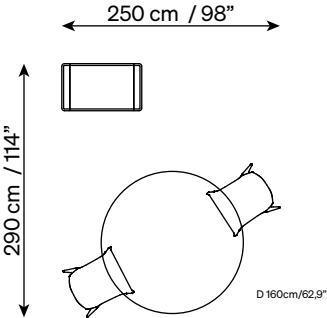

Layout Examples

Our collection of dining tables is designed to fit any space, offering a range of different configurations. Available in two rectangular wooden sizes, L260 cm and L200 cm, and a beautiful round version, D160 cm, with a travertine top. Here are some layout suggestions to inspire you.

Moodboard warm neutral 2

To achieve harmony in every project, the Natuzzi Style Center carefully selects materials and coverings, creating a dialogue between them. In this case, walnut wood has been paired with coffee-colored leather and Volakas marble. The harmonization of these coverings with the woods and marbles will bring the moodboard to life, defining the final look of the project. Each model in the collection is presented with different moodboards to suit all market geographies.
