Notes:

The removable Rete fabric cover of the Alma seating is connected to the steel structure through the use of plastic buttons and Rope cords. The position of the buttons emphasizes the seats geometries.

The seating pieces in this collection can also be used without the specific pads codes B250AM, B250BM and B250CM.

The cushions codes B250M and B250N can be also used on other seating pieces of the Aqua collection.

The product can be used also in interior environments.

We advise to use a Winter Set protection cover.
