

Marea is a rug for exterior and interior environments created with braids shaped like waves, which are sewn together lengthwise; braids can be in Rope, mélange colours, or in Aquatech in solid colours.

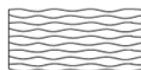

The extremities of each braid are finished with a fringe which is always featured on the short side of the rug.
Only one colour can be chosen.

The width of the braid may vary between 7-9 cm for the Rope version and between 10-12 cm for the Aquatech version.

The dimension of the fringed side is determined by the multiple of the braids and will often vary.

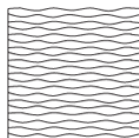

The textile structure of this rug is free: an intense stepping may cause a variation of the rug dimensions.
