Notes:

Sassafras wood is treated against stains and water with water-based products that limit the absorption of liquids and greasy substances,
The tops in Luce and in Venice are made by hand with natural materials, which react unpredictably to crafts production processes. Their surface can feature thickness differences, little marks, striping, little variations of colour tone and solidity. These characteristics are linked to the very nature of the materials and are considered qualities able to make each top unique and different from any other.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
